Motion 23: Intact Forest Landscape Indicators & Guidance DRAFT 3-1

COMMENT DEADLINE: September 29, 2025

This comment form is part of the formal 60-day consultation period on Draft 3-1 of FSC Canada's Motion 23 Pilot Preliminary Normative Indicators for Intact Forest Landscapes. The comment period commences August 1, 2025, and ends September 29, 2025.

INSTRUCTIONS FOR COMMENTS

Please review the Preliminary Normative Indicators *FSC-CA-IFL-PNI-Draft3-1* and the related *Landscapes Guidance: IFL & ICL* document. Please submit comments and propositions using the Comment Table below.

To ensure efficient processing and effective responses, you are encouraged to be:

- **Judicious** – please be discerning in the amount of comments made. For example, if you have similar comments on multiple topics or indicators then it is best to combine them.
- **Constructive** – please comment with the aim to improve the draft Indicators. For example, propose solutions to the elements you are commenting on.
- **Collaborative** – please work with others when possible to pool comments rather than submitting multiple forms.

During this consultation period, FSC Canada will make available a series of updated info-sheets to assist reviewers in understanding some the key IFL concepts that are fundamental to the logic and intent of the draft Indicators. These will be located on FSC Canada's website. FSC Canada will also publish a report outlining the main changes made to the Draft 3-1 after the consultation period along with answers to frequently ask questions.

All comments will be reviewed by FSC Staff and addressed in a public report after the end of the consultation period. This will be the only public consultation for the M23 IFL Draft Indicators.
